The UF Innovation Station Sarasota County is dedicated to strengthening the Sarasota Region’s innovation climate.

Developing Valued Partnerships

Talent & Technology Pipelines
- Gator Engineering at State College of Florida
- Engineering internships and full-time employment

Industry Collaboration
- Speaking engagements and visits between UF faculty and industry leaders
- Capstone Design Projects
- Process/product development and prototype designs
- Sponsored Projects and Research

Workforce Development
- Professor and Industry Leader Speaker Programs
- Seminars, short courses, and workshop offerings
- UF Edge distance learning graduate program

K-12 Initiatives
- Targeted engineering outreach programs
- Career fairs, field trips, Project Lead the Way
- Teacher STEM Professional Development

Economic Impact
- Establish pipeline of engineering talent and technology
- Support growth of high-tech high-wage jobs
- Provide access to R&D talent and infrastructure
- Support workforce development
- Foster new startups

UFIS by the Numbers

- 41 students in Gator Engineering @ State College of Florida program
- 104 interns placed with 27 local companies
- 11 projects between UF and local companies
- 3000+ touches through K-12 outreach
- 400+ K-12 students visiting UF Gainesville on STEM field trips
